

**Job Title:** Part-Time Backflow Assembly Technical Expert

**First Review of Applications:** 3/4/23

**Employer:** Washington Certification Services at Green River College

**Location:** Auburn, Washington

**Pay:** \$45 an hour

**Work Hours:** About 2 days a month, 1 weekday and 1 Saturday (though varies based on exam date demand)

**About Us:** Washington Certification Services (WCS), operating within Green River College (GRC), administers the Backflow Assembly Tester (BAT) certification program on behalf of the Department of Health (DOH). Our mission is to safeguard the health of Washington's residents by ensuring the safety and reliability of drinking water.

**Position Overview:** As a Backflow Assembly Technical Expert, you will play a vital role in upholding the standards set by DOH. Key responsibilities include advising on regulatory matters, assisting in examination development, and conducting BAT performance examinations.

**Key Responsibilities:**

- Conduct BAT performance examinations in strict compliance with DOH regulations, utilizing specialized equipment and technical procedures.
- Advise DOH and Waterworks Operator Certification Program on backflow and cross-connection control regulations and policies.
- Assist in developing and evaluating BAT certification examination standards and criteria.

**Minimum Qualifications:**

- Valid Washington State BAT certification.
- Exceptional proficiency in backflow assembly testing and diagnostics.

**Additional Requirements:** Candidates who proceed to the interview stage must:

- Pass state-required background verification.
- Undergo on-the-job paid training under DOH-approved supervision.
- Receive final approval from DOH.

**Application Process:** To be considered, please email your resume and include a letter of interest/ cover letter in the body of the email to: [BATNEWS@greenriver.edu](mailto:BATNEWS@greenriver.edu)
